

Epic: Customer Service

Epic Description

Develop a customer service portal that allows users to manage orders, refunds, addresses, subscriptions, payments, accounts, and device support services efficiently.

Feature 1: Your Orders

User Story

As a customer, I want to manage my orders so that I can track, edit, or cancel them easily.

Tasks

- Create Orders page
- Display order history
- Implement order tracking
- Add cancel order option
- Add edit order functionality

Feature 2: Returns and Refunds

User Story

As a customer, I want to return or exchange products so that I can receive refunds or replacements.

Tasks

- Create return request form
- Add exchange option
- Process refund requests
- Generate return labels
- Show refund status

Feature 3: Manage Addresses

User Story

As a customer, I want to manage delivery addresses so that my orders are delivered correctly.

Tasks

- Add new address
- Edit address
- Delete address

- Validate pin code and landmark
- Save multiple addresses

Feature 4: Manage Prime

User Story

As a Prime member, I want to manage my subscription so that I can view benefits and renew membership.

Tasks

- Display membership details
- Show Prime benefits
- Add renewal functionality
- Add cancellation option
- Send expiry reminders

Feature 5: Payment Settings

User Story

As a customer, I want to manage payment methods so that I can securely complete transactions.

Tasks

- Add card details
- Edit payment methods
- Delete saved cards
- Add UPI support
- Validate payment information

Feature 6: Account Settings

User Story

As a customer, I want to update my account information so that my profile and login details remain secure.

Tasks

- Change email
- Change password
- Update mobile number

- Add two-factor authentication
- Manage login information

Feature 7: Digital Services and Device Support

User Story

As a customer, I want support for digital devices and services so that I can resolve technical issues quickly.

Tasks

- Create support dashboard
- Add troubleshooting guides
- Add FAQ section
- Create issue reporting system
- Track support tickets
